Demystifying Blockchain

It's just Bitcoin isn't it?

01

Bitcoin != Blockchain

03

No Middleman
Faster
Cheaper

05

Block + Chain
= Blockchain

02

Concept of Trade

04

Ledger
Open
Distributed

What did this provide

What was the main purpose of all the above?

01

Transparency

02

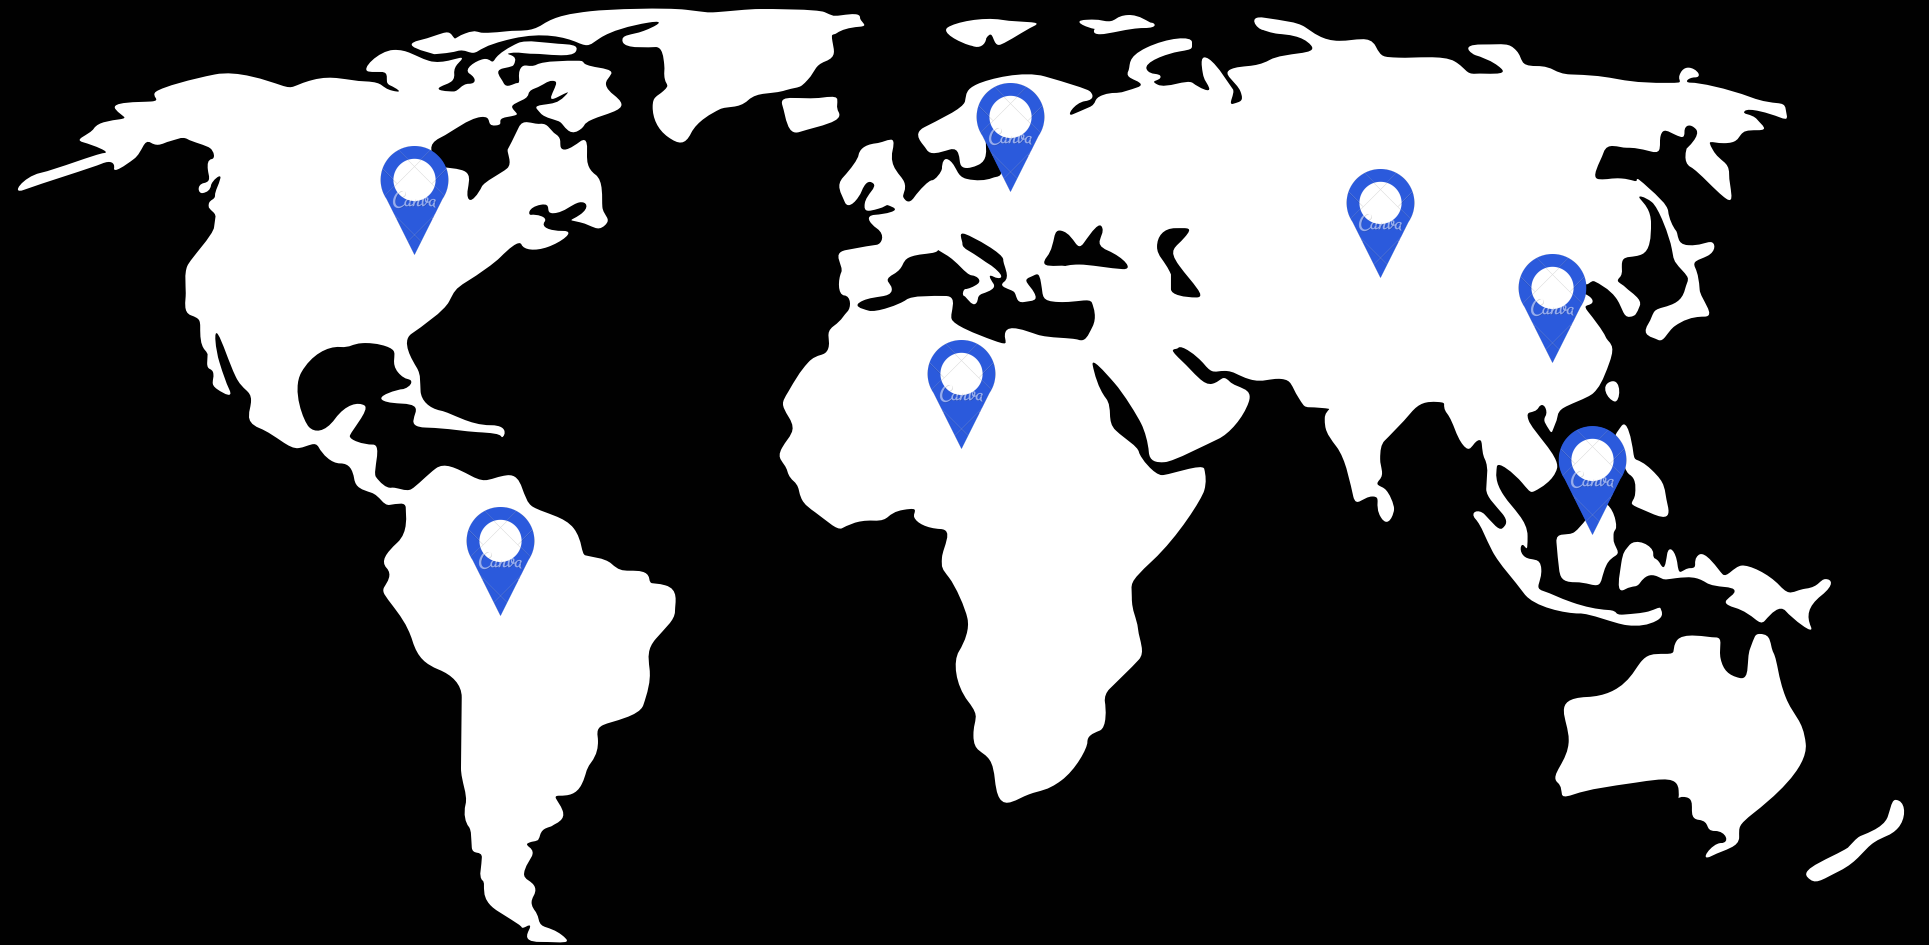

Security

03

Distributed Control

Limitless Possibilities

Insurance
Voting
Banking
Property
Legal Contracts
Identity
Crowd Loans
And much more...

What's Happening Next

The technology is in its infancy right now, even though it's a decade old.

The **best** is yet to arrive!

Blockchain will transform radically the way our paradigm works.
